This is a profile of your neighborhood economy. To see what areas your community is doing well in and where more should be done to ensure access to good jobs, small businesses, and development, see ANHD’s 2016 Neighborhood Economy Chart.

**Residents without Internet Access**
- Jackson Heights: 18%

**Percent of People with Inadequate Emergency Savings**
- Jackson Heights: 59%

**Mean travel time to work (minutes)**
- Jackson Heights: 40.1

**Why having Internet matters**
Residents and small businesses need better access to the internet in order to create and share more employment opportunities, be a skilled labor force, and participate in an increasingly interconnected world. 30% of New Yorkers do not have internet access at home. Is your neighborhood connected in the digital age?

**Why are savings important?**
What would happen if you lost your primary source of income? Families with as little as $250 or more on hand in savings are less likely to miss utility payments or be evicted after a financial disruption.

**Getting to work is important**
The longer it takes to get to work, the further people have to travel from their neighborhoods. Are there employment opportunities within your own neighborhood? And, if you and your neighbors are traveling out of the community to get to work, who is traveling in for the locally based jobs?

**Access & Benefits**
- High Risk:
  - 22% — Percent Without Health Insurance
  - 17% — Percent of Individuals Living in Poverty
  - 31% — Limited English Speaking Households
  - 20% — Percent with Food Stamps or SNAP Benefits

- Medium Risk:
  - 31% — Limited English Speaking Households

- Low Risk:
  - 31% — Limited English Speaking Households

**What Can You Do?**
1. Get to know this information
2. Make sure to talk to your local representatives, Community Boards and Business Improvement Districts about this data
3. Organize your neighbors!

* Sufficient emergency savings cover at least three months of total household expenses, including food and housing.

* Rate of incarceration of average daily population per 100 adults 16 and older based on last known residence. This estimate is limited to local jails and represents an undercount.

* Disconnected Youth represent the population between the ages of 16 and 24 who are neither employed nor currently enrolled in school.
