Your Neighborhood Economy

This is a profile of your neighborhood economy. To see what areas your community is doing well in and where more should be done to ensure access to good jobs, small businesses, and development, see ANHD’s 2016 Neighborhood Economy Chart.

Residents without Internet Access

23%

Why having Internet matters
Residents and small businesses need better access to the internet in order to create and share more employment opportunities, be a skilled labor force, and participate in an increasingly interconnected world. 30% of New Yorkers do not have internet access at home. Is your neighborhood connected in the digital age?

Percent of People with Inadequate Emergency Savings*

54%

Why are savings important?
What would happen if you lost your primary source of income? Families with as little as $250 or more on hand in savings are less likely to miss utility payments or be evicted after a financial disruption.

Mean travel time to work (minutes)

40.4

Getting to work is important
The longer it takes to get to work, the further people have to travel from their neighborhoods. Are there employment opportunities within your own neighborhood? And, if you and your neighbors are traveling out of the community to get to work, who is traveling in for the locally based jobs?

Access & Benefits

6% — Percent Age 60+ with Supplemental Security Income
19% — Percent Without Health Insurance
15% — Percent of Individuals Living in Poverty
42% — Limited English Speaking Households
13% — Percent with Food Stamps or SNAP Benefits
0.24 — Rate of Incarceration* (Rate of incarceration of average daily population per 100 adults 16 and older based on last known residence. This estimate is limited to local jails and represents an undercount.

Work & School

4.70% — Percent Unemployed
79% — Percent High School Graduate or Higher
13% — Disconnected Youth* (Disconnected Youth represent the population between the ages of 16 and 24 who are neither employed nor currently enrolled in school.
