The 2026 AMI Cheat Sheet:

What It Tells Us About Affordability in NYC

The AMI Cheat Sheet shows maximum household incomes and rents for three-person households, using 2026 AMI calculations, and estimates the share of renter households and rent-burdened households at each AMI level in New York City.

What is AMI?

AMI stands for Area Median Income, also known as Income Limits. It is a measure of affordability determined yearly by the U.S. Department of Housing and Urban Development (HUD). AMI determines the eligible income levels for affordable housing. In high-rent areas like New York, the figure is based on market rents rather than actual incomes.¹ New York City uses AMI levels to set income qualifications and rents for affordable housing.

¹ For more information on HUD Income Limits calculations, visit huduser.gov/portal/datasets/il.html.

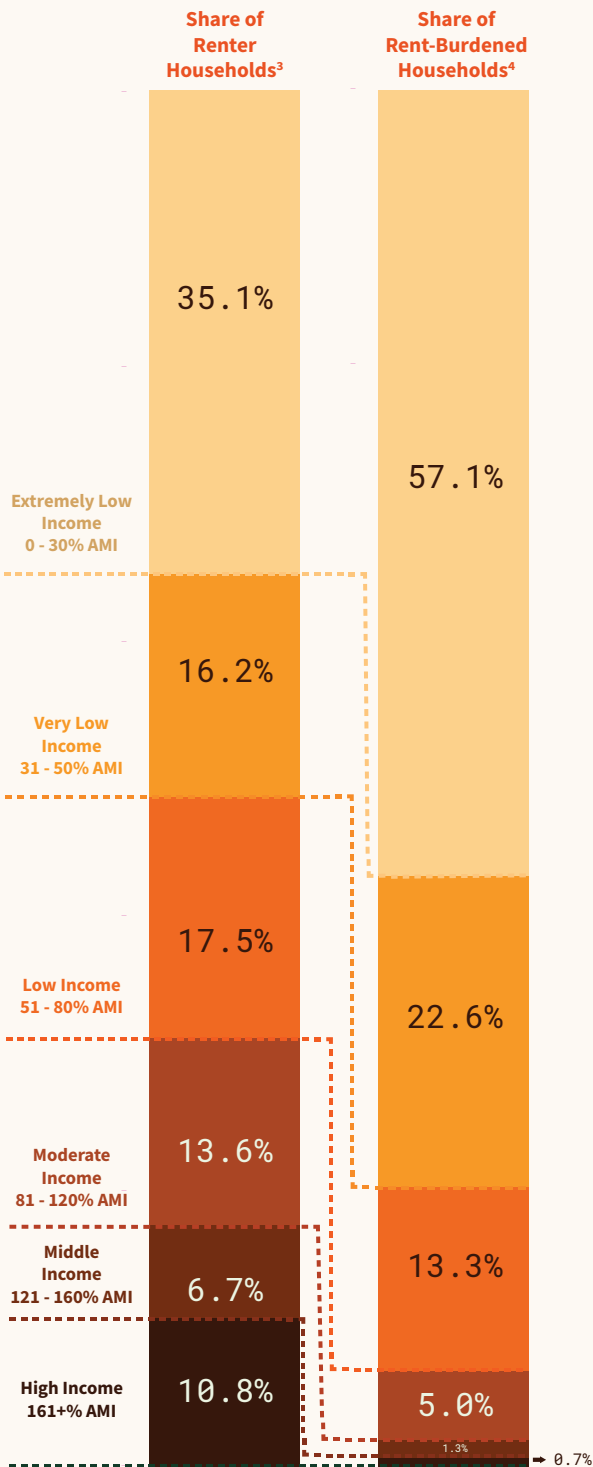

² High Income is not an actual affordable housing category and is used here simply for labeling purposes. HPD's highest affordable housing category is Middle Income, classified as 121-165% AMI.

³ Share of Renter population is calculated using the Census American Community Survey (ACS) 2024 5-year Estimates Public Use Microdata Sample (PUMS). Households are assigned an AMI level based on income and household size. Incomes are adjusted to 2026 dollars using a Consumer Price Index inflation factor of 1.05459, obtained from the U.S. Bureau of Labor Statistics.

⁴ Share of Rent-Burdened Households is calculated using ACS 2024 5-Year PUMS and filtering for households that pay more than 30% of their income toward rent. The methodology was updated this year to classify a household as rent-burdened if their income is zero or negative and they make any rent payments.

⁵ Maximum income for a three-person household that corresponds to the listed AMI level.

⁶ Maximum rents affordable to each AMI level using the 30% standard of affordability (no more than 30% of monthly income).

	AMI Level	Share of Renter Households ³	Share of Rent-Burdened Households ⁴	Max Income (3 person household) ⁵	Max Affordable Rent ⁶
Extremely Low Income	10%	12.1%	18.9%	\$15,270	\$382
	20%	13.2%	21.6%	\$30,540	\$764
	30%	9.8%	16.6%	\$45,810	\$1,145
Very Low Income	40%	8.6%	13.1%	\$61,080	\$1,527
	50%	7.6%	9.5%	\$76,350	\$1,909
Low Income	60%	6.6%	6.3%	\$91,620	\$2,291
	70%	5.8%	4.2%	\$106,890	\$2,672
	80%	5.2%	2.9%	\$122,160	\$3,054
Moderate Income	90%	4.1%	1.7%	\$137,430	\$3,436
	100%	3.9%	1.6%	\$152,700	\$3,818
	110%	3.1%	0.9%	\$167,970	\$4,199
	120%	2.6%	0.8%	\$183,240	\$4,581
	130%	2.0%	0.3%	\$198,510	\$4,963
Middle Income	140%	2.0%	0.5%	\$213,780	\$5,345
	150%	1.5%	0.3%	\$229,050	\$5,726
	160%	1.3%	0.2%	\$244,320	\$6,108
	170%	1.1%	0.2%	\$259,590	\$6,490
	180%	1.0%	0.1%	\$274,860	\$6,872
High Income ²	190%	0.9%	0.2%	\$290,130	\$7,253
	200%	0.7%	0.1%	\$305,400	\$7,635
	200%+	7.1%	0.2%	More than \$305,400	More than \$7,635
